

THINK KIND SONG:

Animals play a big role in our lives, they improve the welfare of humans in many ways. They become our best friends and killing them won't do ohhh. They bring joy in our lives, they make us smile on every road, no matter how hard it seems to cross.

We should stop this,
We should work together,
Teamwork makes the dream work,
And partnership is everything.

We can stop this,
We can work together,
Teamwork makes the dream work,
And partnership is everything.

Hunting animals is killing our environment. We should clean it and protect it. Our environment is very important and we should keep it green, make it beautiful and bring it to life.

CHORUS.....

So Stop, think kind,
Save the animals,
Work together,
Keep it green.

Chorus (slow)
