

## God's Pets

Stop being inhuman towards God's creations,  
One random act of kindness should be the anthem of the nation.

When a fishing traps into the water is thrown,  
do you feel the agony we suffer from?  
We squeal we squeak but no help since we can't speak.  
We are just some innocent fish,  
Please consider other food on your dish.

I am a bumble bee, I am a humble bee.  
Day and night hours after hours,  
We go buzz from flower to flower, just to collect a pot of honey.  
For us it's the only bag of money.  
You can be kind you can be a good fellow,  
You can show your powers by growing more flowers.

I am not just any machine producing wool,  
Although I know it is warm and cool.  
But it is my only blanket to fight against the cold  
It is not just anything to be sold Because for me it is my only gold.

You take my eggs, you take my legs.  
I was safe inside my shell,  
The time I am out, you get me ready to sell.  
I am just a little chick,  
fear of being caged makes me feel sick.

So be my voice, don't make me your choice.  
A kind touch, a little care  
If you just consider my despair.

Every morning we wake up with a fear,  
The fear that our doom is very near,  
The feelings in our heart we always bear.  
I am sure you too have those feelings sometime somewhere.

**Be a VEGAN like a HERO,  
Your greed for us must drop to a zero.**
